	Courses Offered for Online M.Ed.	Research, analyze, and apply theoretical, empirical, and policy material in higher education to synthesize concepts into useful insights.	Examine problems of practice and articulate applicable findings based on the interpretation and integration of studied concepts.	Evaluate, choose, and justify methodologies based on the application of relevant theory to varied areas of practice.	Reflect on and engage with material beneficial to continued professional development.	Collaborate with peers and colleagues in the field in problem solving and decision-making.	Analyze the purpose, audience, and context in communication scenarios and adapt accordingly.	Utilize, assess, and choose communication technologies appropriately.	Apply key theories, concepts, and research methodology to assess current issues and challenges in higher education.	Collect and analyze data to formulate ideas for improving areas of practice, specifically in administrative areas of higher education.	Apply recognized standards of professional and ethical conduct by practicing intellectual honesty, remaining accountable, and respecting the opinions of others.
